Editorial Disclaimer: As an independent organization, Clarivate does not become involved in and is not responsible for the editorial management of any journal or the business practices of any publisher. Publishers are accountable for their journal performance and compliance with ethical publishing standards. The views and opinions expressed in any journal are those of the author(s) and do not necessarily reflect the views or opinions of Clarivate. Clarivate remains neutral in relation to territorial disputes, and allows journals, publishers, institutes and authors to specify their address and affiliation details including territory.

Criteria for selection of newly submitted titles and re-evaluation of existing titles in the Web of Science are determined by the Web of Science Editors in their sole discretion. If a publisher's editorial policy or business practices negatively impact the quality of a journal, or its role in the surrounding literature of the subject, the Web of Science Editors may decline to include the journal in any Clarivate product or service. The Web of Science Editors, in their sole discretion, may remove titles from coverage at any point if the titles fail to maintain our standard of quality, do not comply with ethical standards, or otherwise do not meet the criteria determined by the Web of Science Editors. If a journal is deselected or removed from coverage, the journal will cease to be indexed in the Web of Science from a date determined by the Web of Science Editors in their sole discretion – articles published after that date will not be indexed. The Web of Science Editors' decision on all matters relating to journal coverage will be final.

Clarivate.™ Accelerating innovation.

Year: 2025, Volume: 18, Issue: 8

Details like Journal Information, Aim and Scope, Author Guidelines, Archives and Fees were Clearly described

Indian Journal of Science & Technology

Indian Journal of Science and Technology is an open-access journal publishing full-length research papers and review articles covering subjects that fall under the wide spectrum of science and technology. The journal is dedicated towards dissemination of knowledge related to the advancement in scientific research. The prestigious interdisciplinary editorial board reflects the diversity of subjects covered in this journal. Under the realm of science and technology, the coverage includes environmental science, pure and applied mathematics, agricultural research and engineering, biology, biotechnology, bioinformatics, Healthcare sciences (including clinical medicine, preventive medicine & public health), physics, biophysics, computer science, chemistry and bioengineering, to name a few.

Indian Journal of Science and Technology is published by Indian Society for Education and Environment. The online processing and hosting services rendered by Scientific Research Solution Pvt Ltd.. The journal now brings out weekly issues from June 2015 onwards and brought out monthly publications since its inception in 2007. It supports the open access policy for making scientific research accessible to one and all.

professionals in academia, former researchers, students and other specialists interested in the results of scientific research and related subjects covered by the journal.

Peer Review Policy

Manuscripts submitted to the Indian Journal of Science and Technology are approved by the Editor-in-chief followed by formal peer review process conducted in collaboration with editorial board members and independent referees. The publisher encourages the authors and reviewers to use the [electronic submission and peer-review system](#).

Peer Review Process

Submissions to the Indian Journal of Science and Technology passes through a double-blind peer-review process. The criteria for publication in Indian Journal of Science and Technology are as follows:

- The study presents the results of primary scholarly research.
- Results reported have not been published elsewhere.
- The research meets all applicable standards of ethics and research integrity.
- Experiments, statistics, and other analyses are performed to a high technical standard and are described in sufficient detail.
- Conclusions are presented in an appropriate fashion and are supported by the data.
- The article is presented in an intelligible fashion and is written in standard English.

Once the manuscripts have passed quality control, they are assigned to a member of the Editorial Board (or an expert who is not a member of the Board) for conducting the peer-review process and for making a decision to accept, invite revision of, or reject the article. Information for reviewers can be accessed [here](#).

Shows About Journal Information

the authors' article will be available as widely as possible and that the article can be included in any scholarly archive.

3. Submission of related manuscripts

During the submission of an article, all authors are asked to indicate that they do not have a related or duplicate manuscript under consideration (or accepted) for publication elsewhere. If related work has been submitted elsewhere, a copy must be included with the article submitted to [Scientific Research Solution Pvt Ltd](#). Reviewers will be asked to comment on the overlap between related submissions.

4. Confidentiality

Editors and reviewers are required to treat all submitted manuscripts in strict confidence. The names and email addresses entered in this journal site will be used exclusively for the stated purposes of this journal and will not be made available for any other purpose or to any other party.

5. Corrections and Additions

Responsibility for the accuracy of content lies with the author(s) of the paper. Any corrections or updates to an article after publishing will be accepted at an additional charge of USD 150/INR 5000.

6. Publication Ethics

Authors are expected to be aware of, and comply with, best practice in publication ethics specifically with regard to authorship (for example avoidance of ghost or guest authorship), dual submission, plagiarism, manipulation of figures, competing interests and compliance with policies on research ethics.

creating the equations/formulae.

- All figures provided are of high resolution, preferably 300dpi
- References should follow the [Vancouver Style of Referencing](#).

Manuscript Preparation Guidelines

Articles submitted to Indian Journal of Science and Technology should conform to the guidelines indicated below. Before you submit, please study the author checklist provided at the end of this document. Following is the chronological order of topics to be included in the article:

1. Title
2. Abstract
3. Keywords
4. Introduction
5. Concept headings (include statistical methodology, if any)
6. Discussion
7. Conclusion
8. Acknowledgements (If any)
9. References

Cover Letter

The covering letter should be written by the corresponding author indicating how the manuscript is suitable for publication in Indian Journal of Science and Technology. All authors names are to be included in the letter (preferably along with their signatures) stating the article has not been published elsewhere or communicated to any other publication apart from Indian Journal of Science and Technology. If the article is authored by a student, it is requested that he/she obtain the approval of the institution department prior to submitting the article.

Shows Author Guidelines

Methods:
Findings:
Novelty:
Keywords:

Authors should provide 4-6 keywords for indexing purposes. Keywords should be written in title case and separated by comma. Avoid general and plural terms and multiple concepts (avoid, for example, 'and', 'of').

Headings

For a better understanding of the content in the article, we encourage authors to number the article headings in Arabic style format. Headings should follow title case, meaning that all words except for prepositions, articles, and conjunctions should be capitalized. All botanical names should be in italics.

For example: 1. Finite Element Modelling (FEM)
1.1 Model Description

Abbreviations

All abbreviations should be defined on first use in the text along with the abbreviation in parenthesis. E.g. Magnetic Resonance Imaging (MRI)

Units and Symbols

Symbols should be used while referring to alpha, beta, mu, etc (Ex: α , β , μ , etc). All units to follow the [International System of Units \(SI units\)](#).

Figures: General guidelines

- Figures Format & Resolution: Authors are requested to submit figures in EPS format. We require that figures be created at a minimum resolution of 300 dpi.

Shows Author Guidelines

Substitutes for homework.com

Acknowledgments

People who contributed to the work but do not fit the criteria for authors should be listed in the Acknowledgments, along with their contributions. Authors are requested to ensure that anyone named in the Acknowledgments agrees to being so named.

References

- Only published or accepted manuscripts should be included in the reference list. Meetings, abstracts, conference talks, or papers that have been submitted but not yet accepted should not be cited.
- In text citations: citation should be of increasing numerical order [1], [2], [3] etc . References cited in text should conform to the Vancouver style. Please refer the [Vancouver Style of Referencing](#).
- Reference List: This should only contain references to those works which you have cited in your text. It should appear at the end of your text. It should be arranged numerically increasing citation order [1], [2], [3] etc under 'References'. Each article listed under 'Reference' should carry DOI number or publication hyperlink (url).

Overview of the Production Process

Upon acceptance of the paper, authors will be contacted by the production team of Indian Journal of Science and Technology. The manuscript will be processed through editing and scrutinized for any missing elements or disparities. Authors will be contacted by the production team and asked to supply the missing information in their paper. This will be the final stage for authors to send amendments to the manuscript. Upon finalization of the edited files, the files will be processed through typesetting to generate first proofs. Authors will receive the first proofs of their article to resolve any pending queries. Authors are advised not to send any corrections at the proofs stage and are requested to co-operate with the production team to ensure smooth workflow and timely publication of the journal issue.

Author Checklist before Submission

Are you ready to submit your article? We recommend you check these items one final time before uploading the article on our website. In case of any difficulty in submitting your article, please get in touch with us at indjst@isees.in or indjst@gmail.com.

Shows Author Guidelines

- Cover letter with all author names

difficulty, please let us know.

Kindly access [Author Guidelines](https://indjst.org/author-guidelines) before submission: <https://indjst.org/author-guidelines>

You need to attach minimum 3 files separately:

1. **Signed declaration** letter (in .jpeg or .pdf stating the manuscript is original not published or communicated elsewhere or copied; submission is with the consent of all authors; the work was done after obtaining necessary institutional permission and ethical clearance; add novelty & importance in 3 points & in 3 lines).

2. **"Title page"**: This word document includes:

1) Names, affiliations (complete address including the Department and the Institution) and emails of all authors in "Title page file" as separate file attachment; identify the corresponding author with email and phone number (cell) in it. 2) "Acknowledgement" section: Mention about funding agency/ data source/ clinical support/ Testing support/ sources of study materials. 3) "Contributory statement" section includes whichever appropriate: Conceptualization of study problem: Experimental Design: Software or algorithm: Data generation: Data analysis: Research Guidance: Original Drafting; Editing & Reviewing. Healthcare studies specially includes: Case examined: Intervention planned & executed: Follow-up studies. Contributory statement helps to showcase the intellectual contribution of authors, individually.

Contributory statement model (a representative case of 5 contributing authors): Conceptualization of study problem: Dr. Aishwarya G., Experimental Design: Dr. Aishwarya G. & Kumaran G., Software or algorithm: Prof. Jalal Ahmad: Data analysis: Dr. Nageswara Rao, Research Guidance: Natarajan Gajendran, Original Drafting or Writing: Aishwarya G., Editing & Reviewing: Dr. Kumaran G.

3. **"Manuscript"**: This word document includes:

the entire article content (but omit author details or the details mentioned in the Title page which goes as separate file attachment for blind review purpose) The manuscript file includes: 1. Article Title (without author details), 2. Abstract, 3. Introduction, 4. Methodology, 5. Results and Discussion, 6. Conclusion and 7. Reference sections.

Additional files:

Shows Author Guidelines

Method:

Findings:

Novelty:

Keywords:

Enrich the abstract and conclusion with quantitative/comparative/numerical data in support of your findings (without comparative data or statistical values in these sections, it will be looked upon as empty statements as readers mostly read abstract and or conclusion only)

Reference section should be prepared as per the journal style (Add DOI number/ publication URL for each reference);

Recent references should have been consulted (2024-2019); Please omit references older than 2018 (Except under 'Methodology' section)

Introduction should distil out the gaps of previous work; abridge the introduction section to a para. Omit expanding it as a Literature survey. Introduction should capture the major gaps of the existing literature and also to justify the present work; on this context, major milestone works of recent and most matching ones (about 10 references from 2024 to 2020) should be highlighted along with their limitations for which your work is going to rectify. Generally, omit references older than 2018 (except in methodology) and no need to expand it as literature survey or restating the historical developments.

In other words, introduction should be written in a polished way stitching together the major advancement made in the area and also pin-point the gaps and mention how your work is going to address those issues. It should not be mere narration of the literature.

"Results and Discussion" Section include a detailed discussion on how and why you were able to achieve better results in comparison to state of the art techniques already published reports. Your obtained results should be matched with previous publication by comparing and contrasting to exhibit the novelty of your work. Comparative citation of previous work is must.

Shows Author Guidelines

(under introduction, the research gaps are identified by exhibiting the works of most related studies; under 'Results and Discussion', your results are to be compared with the

- (under Introduction section, you are finding the research gaps in the recently published works; but under results and discussion section" you are matching your results with relevant published reports' results)
- All the figures and Tables must be original and all figures should be of high resolution
- Conclusion section should mention how the objectives fulfilled by stating the novel outcomes of your work linking with objectives; enrich the section with quantitative data; express comparatively how your work is novel and better; mention the limitations of your work and future scope
- All references should be provided with DOI number or publication URL
- Of course free from plagiarism stain

Please use heading as per the journal style:

Title

Abstract

1. Introduction

2. Methodology

3. Results and discussion

4. Conclusion

5. Data availability statement:

6. Details of Ethical clearance:
